

Tuesday Seminar

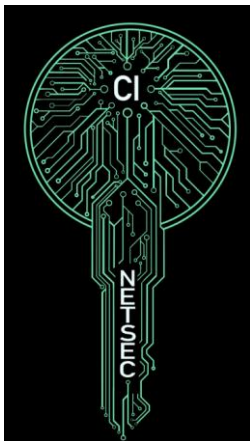

24 SEP | 6 PM

Sierra Hall 1422
CSUCI

DEFCON 

DEFCON: AN OVERVIEW

**Juan Rios, Zane Gittins, &
Samuel Decanio of CSUCI**

Defcon is one of the world's largest hacker conventions. It is held annually in Las Vegas, Nevada and is attended by thousands of computer security professionals, students, government employees, journalists, hacking enthusiasts and more. You'll find a wide array of topics ranging from social engineering, lockpicking, bio-hacking and of course traditional software and hardware hacking. With such a large convention there is so much to see and do you simply can't experience it all. The three speakers will describe their individual experiences at the convention as well as answer any questions.
